SLANDER.—Against slander there is no

defence. I tell cannot boast to love a friend nor man deplore so foul a foe. It adds with a word, with a hind, with a shrill, with a look, with a smile. It is a pestilence walking in darkness, spreading contagion far and wide, which the most weary traveller cannot avoid. It is the heart-sourching dagger of the assassin. It is the poisoned arrow whose wound is incurable. It is as morbid as the sign of the cross.

**BATTLES—**The body of Mr. Thurston who left Detroit a few weeks ago, in a balloon has not yet been found, and parties are in search for his remains in the neighborhood of Baptiste Creek. Two persons who were duck shooting on the day on which Thurston made his departure, say the balloon

making it way towards the marsh in which it was afterwards found ; and both are confident that, at the time, something was hanging to it. It is quite possible, however, that these men may have been mistaken, and that the unfortunate man may have fallen before perhaps into Lake Erie. The two little children, who were carried off in a balloon from Centralia, Illinois, fortunately descended

from Centralia, Illinois, fortunately unscathed in safety, the little girl leaping, with great presence of mind, open the escape valve so as to allow the gas gradually to discharge. The balloon alighted in a tree twenty-eight miles south west of the starting point. Ballooning is evidently a dangerous pastime. We observe that M. Puitvin, the great French aeronaut, who created so much wonder among the Russians and Germans, was

**FRAUDULENT VOTING.**—Self government in America is menaced by no greater danger than the growing practice of fraudulent vot-

ing. Some wholesale frauds in the county of Arrostook, Maine, have brought to light the fact that even the New-England States, which enjoy the advantages of a registration of voters, are not free from the odious canker, which threatens, if allowed to increase, to render republican self government a delusion and a mockery. In the case of the manufactured votes of Arrostook, [several

measured by as many tens] the Democrats usual, are the offending parties. Here, in the State of New York, the sentiment of every honest man, for the last 18 years, has been unanimous in favour of a registry law; but the dishonest influences are so strong that no law has yet been enacted. Contrast the chronic imbecility of the honest portion of

the community of New York State, with the vigor, and authority of the same class in Canada, where no sooner was a general war manifested for a law to protect the purity of the suffrage, than it passed the Legislature without opposition.—*N. Y. Chr. of Glouc.*

**MORE GOLD.**—It would appear from the opening speech of the Governor of New Zealand to the fifth general assembly, of March

ment of that Island, that in addition to the new gold ex-  
posed by the Fraser River, New Zealand may also furnish a further supply. The discovery of a new gold field in the  
province of Nelson (the southern part of the northern main Island) is an event of im-  
portance. Taken in connection with the known existence of gold in the Provinces of Auckland (the northern part of the same Island)

and when the recent discovery of auriferous indications in the presence of Otago (at the southern extremity of the main island) he thinks there is reasonable ground for anticipating that the material interests of the colony will receive a powerful stimulus from the near sources of wealth. It would seem, indeed, as if gold digging had already become a business in the island, as the Governor pro-

mixes to submit measures for maintaining law and order among those who may resort to the gold fields. There is a very strong physical resemblance between the islands of New Zealand and those of Japan. Both consist of a mass of interior mountains, with a narrow margin along the coasts, of level and fertile land. Both are evidently of volcanic origin, and Japan has always been famous for its world-famous volcanoes.

**TORONTO FALL ASSIZES.**—The Fall Assizes for the United Counties of York and Peel open to-day at 12 o'clock, noon. Mr. Justice Hoggitt, presiding. The calendar so far as numbers are concerned, is light, but the crimes charged against the prisoners are very serious. There are no fewer than

five persons charged with murder. The following is the calendar:—John O'Leary, murder; Jagoh Whitmore, murder; John Ringgold alias Brown, murder (previously convicted for assault); Thomas Moore, murder; John Irwin, murder; Timothy McNamara, (two charges) felonious assault; James Henderson, robbery; Henry Ingebar, murder;—Avin. McPherson, larceny, (two

obarges); Mary Farrell, larceny, (no charges); Eliza Freeman, larceny, (no charges); Maria Burns, larceny; Batcliffe, larceny; John Robb, larceny, previous conviction at Assize of 1841; and McDougall, robbery.—

## THE NEW ERA.

Newmarket, Friday Oct. 22, 1858.

## General Summary.

Our Kingdom Show was held at the Agricultural Society, on Wednesday, Fall races, full program, full program.

The Opposition Candidate for the Erie Division, Mr. Christie, has been rejected by a large majority.

A County meeting has recently been held in Peterborough, which was attended by the Governor, General and his Adjutant, and passed several resolutions of importance.

Our friend, Mr. James Nixon, has opened a Grocery Store, next door to the office. We have examined his Prices and Stock, and can recommend them to the public. This establishment will be a great convenience to this part of the town.

A meeting of the Directors of the Provincial Agricultural Society should have been announced to-day, so that parties who felt neglected could have made their complaints previous to the proceedings being held. As Mr. Nixon should have held a meeting to deal up their affairs.

A Sabbath School, in connection with the W. B. Church, in this place, was opened last Sunday. The attendance was good, and there is every reason to believe an efficient school will be carried on. The officers have purchased a new library containing about 200 volumes.

We have this week to record a most melancholy and fatal accident, which took place on Friday last. Mr. Thomas, of King, was returning home from the Newmarket Fair, and some horse was thrown from his wagon against a stable, breaking his back several times. The unfortunate man only survived about 21 hours after. He leaves a wife and five small children to mourn his loss.

## Recognition Service.

One of the most interesting religious services we have attended for a length of time, took place in the Congregational Church, Bedford Street, Newmarket, on Thursday, Oct. 14th, inst., in recognition of Rev. Joseph Hooper, of Pastor of the Congregation attending that place of worship.

Rev. Mr. Brown, Pastor of the Presbyterian Church, opened the proceedings, by giving out a Psalm. After singing, the Rev. Mr. Hooper read a part of the 4th Chapter to the Hebrews, and engaged in prayer. A Hymn was then read by Rev. Mr. Potts, Wesleyan Minister, and after singing, Rev. Mr. Fenwick, of Kingston, delivered the introductory address, taking a portion of Scripture as the basis of his remarks, to be found in the 14th Chap. of Paul's Epistle to the Corinthians, and 12th verse—"Forasmuch as ye are zealous of spiritual gifts, seek that ye may excel to the edifying of the Church."

From this text, the Rev. gentleman referred to the leading points in the government of the Congregational Church—urged the importance of maintaining as near as could be correctly understood, the same course pursued by the early Church as laid down by Christ and the Apostles, and concluded by dilating upon the object of Christian Associations.

Rev. Mr. Goldsmith then gave out another Psalm, and after the Choral had sung the same, Rev. Thos. Baker, the late Pastor, called upon Rev. Mr. Smith, Esq., to assign reasons for inviting the Rev. Mr. Hooper to become their Pastor. Mr. Smith then stated the circumstances which led the late Pastor to resign the charge, viz: ill health, and the "Provisional" manner in which their present Pastor had met with them, by being "asked to supply" the pulpit for a Sabbath. This led to an invitation to continue his labors for a short time, with a view to his settlement, and after a short probation, the Church in this place decided, unanimously, on giving him a call to the Pastorate, which had been accepted.

Rev. Mr. Baker then questioned the New Minister on points of doctrine—discipline—and the motives which led him to accept the charge, and was answered quite to the satisfaction of all concerned. Mr. Baker then engaged in the Dedication prayer.

Rev. Mr. McFadden then gave out another Hymn, and after singing, Rev. Mr. Morgan, of Toronto, extended to Rev. Mr. Hooper the right hand of fellowship, delivering a few very appropriate and touching remarks.

Rev. Dr. Wilkes, of Montreal, then delivered the charge to the Minister, which was certainly a master effort.

For purpose publishing it in *extenso*, next week.

After singing another Hymn, Rev. Mr. Pattison, of Eden Mills, delivered the charge to the people—pointing out in a clear and forcible manner the duty of the Church to strengthen the hands of the Pastor, and the necessity of cultivating a spirit of unanimity and cloistered friendship. The Rev. gentleman concluded by prayer; thus ended a really interesting service—particularly to those who had never witnessed similar occasions.

In the evening, an excellent tea-meeting was held. The large Church was filled with the respectable and intelligent of all denominations in the village, and a very interesting and social evening was spent together. The creature comforts were first-rate—with a plentiful supply; and the address was of a character for abundance was delivered on social occasions.

We took a long report of the proceedings, owing to the crowded state of our columns, to give other reports, we are compelled to omit them. The whole service was one of the most interesting we ever attended at Newmarket.

## North York Electoral Agricultural Society.

The above Society held their first Fall Show at Newmarket, on Friday last, the 16th inst., and we may safely say, was the largest and best exhibition, as a whole, ever held in the County of York. The day was fine and pleasant; and the interest manifested in this, the first exhibition, bespeaks much for the future prosperity of the Association. Between 2,000 and 3,000 visitors were present; while the number of articles and animals entered for competition exceeded the most sanguine expectations of its friends—there being about 700. Many of the animals, and the largest portion of the produce, roots, &c., were superior to those exhibited at the late Provincial Fair, Toronto—the sheep, swine, and roots, especially, in a particular manner, as was remarked by hundreds present. It would be imprudent in us to make injudicious distinctions; but we will say, in illustration of the kind, that we met with more complete success. It is, perhaps, true, that every one was not perfectly satisfied with the result in regard to premiums; but which we reflect upon the large number of entries, and the very arduous duties imposed upon the judges, the wonder is, they were enabled to accomplish the work, in so short a time, as well as they did.

While upon this point, two or three ideas suggest themselves as a remedy. First, let Judges be selected from a distance. Secondly, let the Exhibition occupy two days instead of one, and thereby give judges time to make more careful examinations. Thirdly, let the Association fix the exhibitions of the society permanently in one place—enclose the grounds—erect a building therein sufficiently large to exhibit the Ladies Work and Fine Arts—and issue badges and tickets of admission the same as at the Provincial Fair. Should the Society adopt this last proposition, and fix the Fall exhibitions permanently at Newmarket, and when we reflect upon the large number in attendance it would be absurd to take it to any place where sufficient accommodation could not be found to entertain visitors, we believe this Municipality would erect a building at the expense of the village, either by direct taxation or voluntary subscriptions. We would also suggest the propriety of East Gwillimbury Agricultural Society, from its close proximity to Newmarket, to unite their funds with those of the North York Branch to the County. This would enable the Association to enlarge and increase the prize list, and we would be enabled to hold a County Show quite equal to the first Provincial Exhibition. By adopting this course, the prize list could be unimpaired the second day about noon, when we might have an elaborate address prepared by the President, and plenty of time for other practical and experienced farmers and others to make speeches on agricultural science. Talented Lecturers, such as Prof. Buckland, might be secured to deliver an address on the evening of the first day, during the afternoon of the second day. The small charge made to enter the exhibition grounds would cover all expenses of working the association—procuring lecturers, &c., and the whole funds of the Society, raised from members and the Provincial Grant, could be expended in premiums. We have thus thrown out a few hints for the consideration of those interested in the hope, that at the next annual meeting steps may be taken to correct some of the evils that now exist.

But to return; after the judges had completed their duties, a large number of the society's friends adjourned to the Railroad Hotel where an excellent dinner was provided; on the removal of the cloth the Secretary, R. H. Smith, Esq., read the prize list. The President then gave the usual loyal toasts; after which he addressed a few remarks to the assembly, but as the evening was now drawing on, the company soon dispersed. The following is the—

## Amusements.

A Governor, advertising for a situation, says: "She is a perfect mistress of her own tongue."

An Irishman, speaking of a relative who was hanged, said he did during a tight rope performance.

Some one says that the municipal arrangements are so strict in this city, that Dr. Keno was kept from going north by the North Pole ice!

A German named Rieberg was recently executed at Alameda, California, for murder. As he was being conducted to the place of execution, a friend approached and shook him by the hand with the following words: "Take care of yourself, old fellow."

A "Single" man advertising for employment, a maiden lady wrote to inform him, that if he could find nothing better to do, he might come and marry her. He did so and married twenty thousand pounds.

An old man told a barber that he would like to have his hair cut, but that the time had come when he could not do so. The barber said: "No sir," replied the shaver, "I have twice the ground to cover."

Two Irishmen were recently looking at a knot of people stretching a rope across the street from one house to another, for the suspension of a banner.

"Pat," said, "but what will they be after doing at the tops of those houses?"

"Mike," said, "on this is a submarine telegraph they're putting up, I am thinking."

## DR. MORSE'S INDIAN ROOT PILLS.

## CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Morse's Indian Root Pills, named A. B. Morse. All genuine Indian Root Pills have the name and signature of J. J. White & Co. on each box. DR. MORSE'S INDIAN ROOT PILLS have been the subject of his life in travelling, having visited Europe, Asia, and Africa, as well as North America. He spent three years among the Indians of the Western continent, and it was in this way that he discovered the first discovery of the Indian Root Pills.

Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY of the blood—that our strength, health and life depend upon this vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to see that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow upon the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is the Sassafras, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is an Expectant, and opens and unblocks the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraging them to throw large quantities of impurity from the blood, which is then thrown out boundlessly by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the outer outlets, are thus taken up and conveyed off in greater quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all ailments and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose lives have been saved, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and at length surprised, in witnessing their changing life. Not only do they get immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will be eternally pure, that sickness, death and decay will be taken away, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cheer and brighten your days.

Caution.—Beware of a counterfeit signed A. B. Morse. All genuine have the name of A. J. White & Co. on each box. Also the signature of A. J. White & Co. All others are spurious.

A. J. WHITE & Co., Sole Proprietors, 50 Leonard Street, New York.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicine.

Agents wanted in every town, village and hamlet throughout the land. Parties desiring the agency will address as above for terms.

Price 25 cents per box, five boxes sent on receipt of \$1.00, postage paid.

## Mill Privilege and Saw Mill,

## FOR SALE!

For Sale, a Saw Mill and first-rate site for GRIST MILL, WITH 25 feet head and on a good stream. There are few better situations for a Grist Mill in Canada—the Mill at Aurora is well known on the South, with no mill to the East for many miles. The Saw Mill has 16½ feet head and the Sawyer says it will cut from 1000 to 1200 logs per year.

This property is built on 1000 to 1200 logs per year, in the Mill of Whitechurch, and will hold a bargain. The Mill site properly covers an area of about 12 Acres.

For further particulars, apply to Mr. E. Jackson Newmarket, Messrs. Ash & Co., Aurora; or to the undersigned at the Aurora P. O. (If by letter postpaid) at the Aurora P. O.
